

Take the PANA Art and Garden Tour in whatever order you would like. The artists and gardens will be available from 9 a.m. - noon on Saturday, May 21, 2022 (weather permitting). The descriptions of the yards and artist statements are in order from West to East from Twin Parks to Pueblo Alto neighborhood.

4020 Avenida la Resolana NE (at the bottom of Twin Parks)
- garden and artist*

1/4 acre lot, fully landscaped with a huge pond and swim spa, plus several smaller waterfalls in the entry courtyard. Minimum landscape outside in the small front yard.

Jane Williams - potter

Jane has been doing pottery for many years, starting in Colorado where she worked at the city pottery studio. Since moving to Albuquerque in 2015 she has gradually established a studio in her garage. She does a variety of pottery pieces from bowls to cups to unique bottles.

**You will find her and her pottery at 4020 Avenida la Resolana NE.*

735 Adams St NE - garden

This backyard tour features chickens, veggies, and roses along with the downsides of trying to grow grass in the desert.

4705 Summer Ave NE - garden

Chris likes to grow things. His gardens tend to go where nature takes them. His newest additions to his yard are his recently planted beds of sunflowers and metal work for his climbing roses.

825 Madison Street NE - garden

Upon arrival, visitors can see the wildflower bed in front of our patio wall, as well as other plantings in the xeriscaped front yard. Entering the back garden area through the side gate, one will see the different aspects of the yard/garden, including the xeriscaped central area with some plantings, the raised bed for growing organic vegetables, a small lawn of Buffalo grass, our DIY irrigation system, and varied plantings around the outer edge of the yard next to the walls.

916 Madison St NE - garden and artists***

Andy and Tina's yard continues to evolve. The latest additions:

- metal porch arbor for the climbing rose and wisteria
- beehive
- cover crop in two parts of the yard (to improve soil and to choke out bermuda grass in the lawn)

Stroll through the orchard alley, working yard and rest a moment in the blossom filled backyard.

Andy Young Fine Art

Andy has been drawing since he was a kid, but he only started painting landscapes a few years ago. He loves painting New Mexico landscapes because it means he has no choice but to travel around the state taking photos of beautiful places.

****You will find him and his art at 916 Madison St NE.*

Edie Baldinger Studio

Edie is excited to show her new metalwork, wielding the jeweler's torch to create organic textures on silver with the techniques of fusion and reticulation. Each piece of wearable art is a collaboration between the metal, the flame and the jeweler's eye.

****You will find her and her craft at 916 Madison St NE.*

Point of Interest Little Free Library 921 Madison St NE

913 Quincy St NE - garden and seedlings****

Our yard is an experiment in low-fi gardening. We believe more in cultivation than ornamentation. This means working with what you've got, which includes letting things go and repairing the soil. It is a work in progress as the heat, wind, and sand makes growing or keeping anything alive a challenge. It is a daily meditation in watching the grass grow.

****There will be 21 pumpkin seedlings available, free to anyone who would like to grow pumpkins to share in October for the neighborhood pumpkin carving.
